- **3rd Page--** **CONTENTS** :
Write in tabular form the following Headings with the respective page number.
- **4th Page---** **INTRODUCTION**
- **Definition of Probability , types and formula**

MATERIALS REQUIRED TO MAKE THIS PROJECT -

- **File papers , a pen , a pencil,a ruler. few coloured pencils, Weather app / newspaper**
 - **5th Page --** **PROCEDURE:**

Data Collection (14 Days)

- **Record maximum temperature every day for 2 weeks.**
- **Use sources like weather apps or TV forecast.**

Tabulate the temp of your place for two weeks .

Table Format:

Day	Date	Max Temperature (°C)	Above 40°C? (Yes/No)
1			
2			
...			
14			

- **Graph Work**
 - Draw a bar graph:
 - o X-axis → Days
 - o Y-axis → Temperature
- Mark days above 40°C in red color

Calculate the total outcome and favorable outcome

The probability of a sunny day (temp which is above 40 °C)

Probability Calculation

Formula:

Probability = (Number of days above 40°C) ÷ (Total number of days)

Example:

If 3 days are above 40°C out of 14 days:

✍ Probability = $3 / 14 = 0.21$ (or 21%)

Date of Submission 15th July 2026.

Questions (Based on Your Weather Data)

1. How many days did you record the temperature?
2. How many days had temperature above 40°C?
3. How many days had temperature below 40°C
4. What is the probability of a day being above 40°C?

5. What is the probability of a day being below 40°C ?
6. What is the probability of a day being exactly 40°C (if any)?
7. Which is more likely:
A day above 40°C OR
A day below 40°C ?
8. Are very sunny days (above 40°C) common or rare? Why?
9. If you continue recording for another 14 days, do you think the probability will change? Why?
10. Does the probability depend on the season? Explain.
11. If the probability of a very sunny day is 0, what does it mean?
12. If the probability is 1, what does it mean?
13. Can probability be more than 1? Why or why not?
14. What is the probability of getting 2 very hot days in a row? (based on your data)
15. Predict the chance of a very sunny day next week using your data.
